ENG-US-LX3 VET-V1.0-20210818

Flexible and Available at Fingertips

Acclarix™ LX3 VET
Diagnostic Ultrasound System

New Generation of Capability and Flexibility

Integrated with compact appearance, cutting-edge technology and intelligent workflow, Acclarix LX3 VET is to provide more valuable innovation. Its excellent image performance plays an important role in the prevention and early detection in primary medical care, enriching the diagnostic application and enhancing the clinical value.

The Virtue of Value

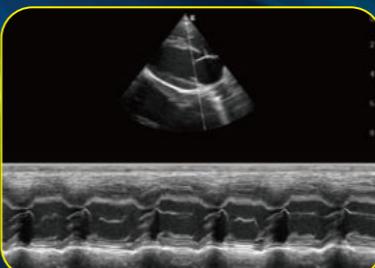

The Acclarix LX3 VET delivers unmatched value and performance across a broad range of applications:

- Canine
- Feline
- Bovine
- Ovine
- Equine
- Reproduction
- Cardiac
- Abdomen
- Superficial

Stunning Clarity

Compacted with innovative Edan TAI technology and multiple imaging processing technologies, Acclarix LX3 VET could perfectly display ultrasound image in different modes, assisting sonographer to make more precise diagnosis.

- High fidelity, high-channel count architecture results in superb detail resolution, particularly at depth
- Tissue Adaptive Imaging (TAI) continuously and automatically optimizes imaging allowing more focus on the patient
 - In B-mode, TAI fine tunes multiple parameters to provide the best possible image quality
 - In Doppler, TAI automatically adjusts for flow state, providing improved continuity, border detection and filling of color

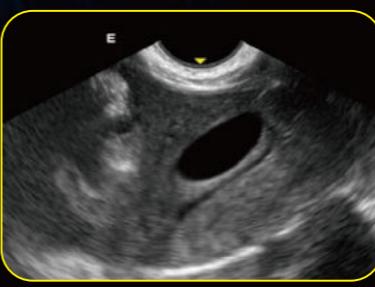

Canine Heart (M mode)

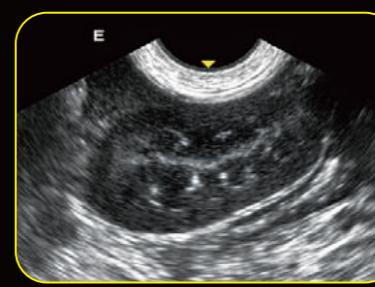

Canine Heart (B mode)

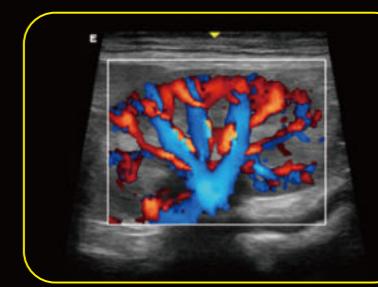

Liver (C mode)

Gall bladder (B mode)

Kidney (B mode)

Kidney (C mode)

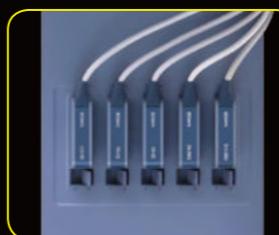

Distinctive Design

Considerate gel warmer design for better experience

Customizable touch screen user panel to simplify diagnosis

5 active transducer ports to maximize clinical application

Keyboard with dedicated swivel for easy folding
